Ireland's EU Structural Funds
Programmes 2007 - 2013
Co-funded by the Irish Government
and the European Union

Executive Summary

Key Points – Aims, Objectives, Rationale for Cross Border Approach

SECTION A – PARTNERSHIP

Describe how the project was jointly managed and delivered. How effective has the partnership been?

What have been the main challenges in working as part of a cross border partnership – what is the balance between the benefits and the challenges?

SECTION B - PERFORMANCE

OUTPUTS as per question 10 of application form	Original prediction	Achieved at close of project	Prediction/ Achieved (%)
RESULTS as per question 10 of the application form	Original prediction	Achieved at close of project	Prediction/ Achieved (%)

Geographic Areas Benefited

--

Project Evaluation:

Yes/No:

Internal/External:

Financial Performance – Per Partner	Total Budget	Total Actual Spend	Budget/Spend %

Please provide additional commentary to explain the background to the project's outputs and results.

--

Are there any additional outputs/results that cannot be captured by the programme's official statistics? Please provide information and relevant explanations.

--

SECTION C - CROSS BORDER ADDED VALUE

How has the project contributed to the aims of the Ireland-Wales Programme?

--

Please describe how cross border cooperation affected the delivery of the project and how it adds value to participating organisations?

Are there particular success factors and are there any lessons to be learnt?

--

Describe the innovative actions that the project has delivered in the programme area as a result of the cross border cooperation.

--

SECTION D – FUTURE DEVELOPMENT

How will the project develop further after Ireland Wales funding ceases? Are there any further outputs/results/impacts expected in the medium to long term?

--

What further opportunities for collaboration exist for the partnership and how might they be achieved?

--

Who will take responsibility for and ownership of the products and services developed during the project and how will they be distributed and further developed in the future.

--

If the project has developed best practice models, what are they and what is the plan for disseminating and/or implementing these models?

--

What is the likely medium/longer term impact of the project both in terms of the regions affected and in relation to the participating partners?

--

SECTION E – PUBLICITY

Please outline how your publicity plan was implemented and provide a summary of press coverage received during the life of the project.

--

Please provide details of any publicity materials that are available for the project
